E-LOCK STANDARD

This is the basic electronic lock of LeghornGroup and is able to report opening, closing or tampering events, by monitoring unauthorised access to goods, means of transport and buildings throughout the reading of a random number generated by the device and which must corresponds to the number of arrival.

ALERT LOCK

In addition to the basic function of the Standard model, Alert lock is equipped with a SIM card and is able to send a SMS to mobile devices or web platforms in case that the cable and/or the doors of the means of transport to which it has been affixed are opened, closed or tampered.

E-LOCK GOLD

In addition to the basic function of the Standard model, E-lock Gold is equipped with a SIM card and is able to:

- send a SMS to mobile devices or web platforms in case that the cable and/or the doors of the means of transport to which it has been affixed are opened, closed or tampered.
- monitor, analyse and control the position of the vehicle thanks to its GPS module for geolocation and GSM/GPRS modules for a real time communication.
- track the vehicle throughout a web platform or send a SMS with the position at timed intervals.

SPYLOCK

Not only does it report opening, closing or tampering event, but is also able to :

- memorize and display the history of all the registered movements.
- download the information into the PC by USB.

Products overview:

	Unique Identification	Events Registration	PC Communication	Report Events/ access in real time	Rechargeable Battery via USB	Method of attachment
E-LOCK STANDARD	✓	✗	✗	✗	✗	Screw or Rivets Magnetic Plate
ALERT LOCK	✓	✗	✗	✓	✓	Screw or Rivets Magnetic Plate
E-LOCK GOLD	✓	✓	✓	✓	✓	Screw or Rivets Magnetic Plate
SPYLOCK	✓	✓	✓	✗	✓	Screw or Rivets Magnet

All the active reusable electronic locks of LeghornGroup are designed to prevent theft and fraud in freight transport ensuring protection, identification, control and tracking.

With **innovation** and **experience**, we give our contribution for a great safety and efficiency in the logistic chain.

Protection.

LeghornGroup can protect your goods and assets with security seals and various products for tamper protection. The company can create bespoke, technical solutions to meet client's requirements.

Control.

LeghornGroup ensures goods and people can be monitored using security products and integrated complete hardware and software solutions that allow the operator to monitor and intervene in real time, even remotely.

Identification.

LeghornGroup's understanding of authentication along with their innovative technical products and solutions allow users to uniquely and securely identify, goods, vehicles, containers, animals and people.

Tracking.

LeghornGroup's real time GPS tracking devices allow users to monitor location, status and movements of vehicles and people.

	TYPE OF SEAL	RELIABILITY
1	 <p>LEAD SEALS WITH NUMBERING : easy to open and close. They are used in many parts of the world.</p>	ANY
2	   <p>STRAP SEAL WITH NUMBERING: are better than the previous because they have the numbering but are easy to tamper with.</p>	LACKING
3	  <p>BOLT AND CABLE SEAL WITH NUMBERING : high security SEALS. Hard to tamper with. (tamper possibility on the doors of the container)</p>	GOOD ISO 17712:2013
4	 <p>BARRIER SEALS WITH TRIPLE NUMBERING: really high security barrier seals. Low possibility of tamper both the seals and the doors of the container.</p>	REALLY GOOD ISO 17712:2013
5	 <p>RFID ANTITAMPER BOLT SEAL. Are able to declare the status of the seal.</p> <p>NEPTUNESAL RFID ANTI TAMPER</p>	EXCELLENT ISO 17712:2013
