

OVERLAND, SEA AND AIR TRANSPORT

LeghornGroup

Protection - Control - Identification - Tracking

Since 1978

PROTECTION – CONTROL IDENTIFICATION – TRACKING

For all modes of transport, we have the right system for avoiding :

- 1 Partial omission of the goods being transported.**
- 2 Theft of the entire vehicle and all the goods.**
- 3 Theft of fuel.**
- 4 Addition of extraneous products in cargo : contaminated or dangerous.**
- 5 Inclusion of illegal immigrants.**

For all modes of transport, we have the right system for

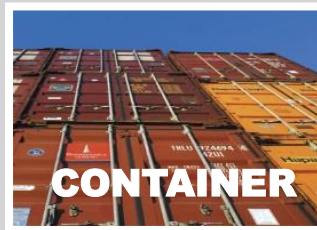

- 1 Electronically controlling the opening and closing of vehicles.**
- 2 Tracking the vehicle or the goods (RFID)**

TRANSPORTS ARE DIVIDED INTO:

OVERLAND

SEA

AIR

AIR PALLETISATION

The means of transport are used to carry the goods produced that must be protected in any way from :

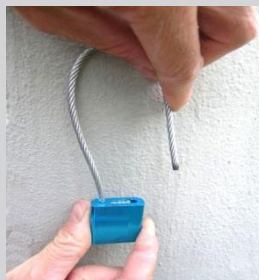

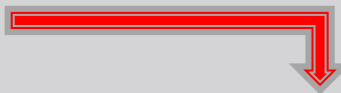

- Partial tampering
- Full theft
- Contamination

The vehicle in turn has to be controlled during its route.

LeghornGroup specialises in control and anti-tamper products

WEB TRACKING

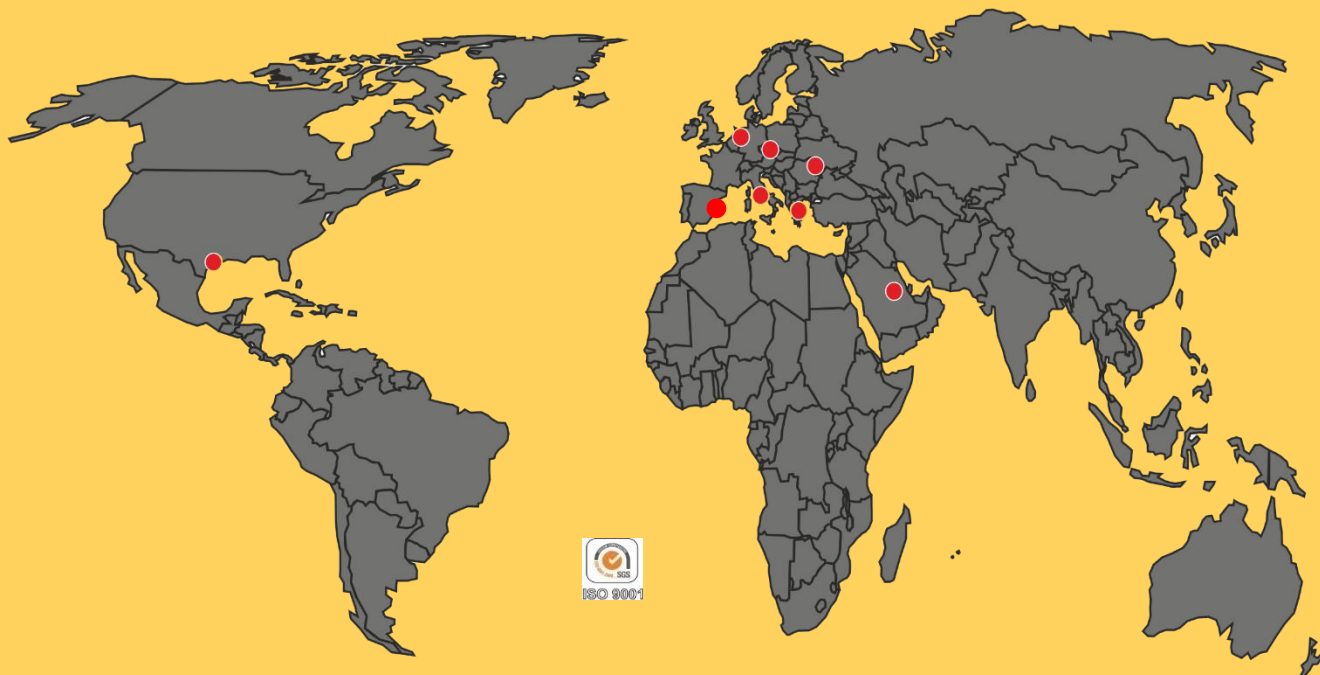

LeghornGroup offers a 24 hours WEB service called **“EPR TRACKING ON-LINE”** which allows to check the distance and in real time the position of each vehicle or whole fleets.

“EPR TRACKING ON-LINE” offers you the visualisation on mapping software, the layout of the itinerary, the creation of printout, history data management, data download, calculation of distances, speed control and rest time.

24 HOURS DIRECTLY ON THE WEB
