***NEEDED  
CERTIFICATES  
TO BE IN GOOD  
STANDING  
WITH THE USE OF  
HIGH SECURITY  
SEALS COMPLIANT  
WITH  
ISO 17712: 2013***

2021 LeghornGroup IT Team 7401-A508

***NEEDED CERTIFICATES TO BE IN GOOD STANDING  
WITH THE USE OF HIGH SECURITY SEALS COMPLIANT  
WITH ISO 17712: 2013 (1/2)***

*There are several organisations that sell high security seals for containers, but they cannot offer all the necessary certificates together with the seal to demonstrate that the seal is suitable for the requirements.*

*In case of any dispute, your organisation will legally be absolved from every attribution of blame if you can show all the necessary certificates of a high security seal for container.*

***NEEDED CERTIFICATES TO BE IN GOOD STANDING  
WITH THE USE OF HIGH SECURITY SEALS COMPLIANT  
WITH ISO 17712: 2013 (2/2)***

*In order that your company is sure of having purchased High Security Seals compliant with the requirements set by the standard ISO 17712:2013, and may consequently be considered released from any liability in case that any unexpected problem arise in the future, please make sure that your supplier will release all of the following certificates:*

## *Certificate of Conformance For Freight Container Mechanical Seal Testing*

In this certificate, the following information shall be clearly visible :

- The Authority that carries out the test.
- The manufacturer of the high security seal
- Date of the test
- The test results that certify the seal as "HIGH SECURITY"
- The pictures of the seal
- The signature of the supervisor that have carried out the test

This certificate concerns the seal.

The certificate guarantees that the seal has all the requirements of the ISO 17712:2013 standards.

\* This certificate applies only to the product and is issued by laboratories qualified ISO 17025.

Signatory of PA and IAF Mutual Recognition Agreements

**2**

Declaration of an International Certification Body (e.g. SGS) certifying that the seal manufacturer has adopted best practices that ensure the compliance of the seal itself to the conditions set in Clause 6 of the standard ISO 17712:2013.

*Clause 6 of the ISO 17712:2013 standard oblige the seal manufacturer to test, under their responsibility and in the presence of a Certification Body (ex. SGS), the seal's resistance and some attempts at tampering.*

*The declaration is shall be accompanied by pictures and videos that show the resistance of the seal and some attempts at tampering.*

***This certificate covers the seal manufacturer and is an integral part of the product certificate referred to in point 1. Without this additional certificate the requirements of High Security Seals cannot be considered fully met.***

### 3 High Security Seal Production Certification ISO 17712 Annex A

*This certificate concerns the seal manufacturer.*

*The production of High Security Seal must be compliant with ISO 17712 Annex A.*

*These three certificates together are essential in ensuring high security standards of the seals purchased.*

*In addition, LeghornGroup has the quality system certification according to UNI EN ISO 9001:2015. This type of certification concerns the organizational processes of the company aimed at achieving high quality standards.*

2021 LeghornGroup IT Team 7401-A508

## *Additional Certificates*

LeghornGroup not only provides the necessary certificates for ISO 17712:2013 compliance as previously described, but provides the following additional certification:

Uniqueness of the High Security Seal.

The statement which attests that any high security seal is sold without a unique numbering, name and identification number.

The statement which attests that the company keeps regularly a database that enables the traceability of any High Security Seal and where the following information are recorded :

Type of seal

Colour

Numbering

Customisation

The quantity placed on the market

Customer name
